

GPD Group with the City of Munroe Falls will be working on surveying and engineering for the Water Main Replacement and Road Resurfacing Project on **Trudy Ave**

Part of this work will require the locating and marking of all utilities. Residents can expect survey stakes and multi-colored flags and/or paint markings within the public right of way

This will be an ongoing process. Please leave flags and markings in the right of way.

Your cooperation is greatly appreciated.

The City will continue to update this posting
